Alexander Majors House Events

Accommodations

The Alexander Majors Barn accommodates approximately 150 people comfortably for receptions and 140 for lunch or dinner and other meeting events. The barn is 32 feet wide and 54 feet long (2,592 sq. ft.) with a loft in the upper East one-half of the structure (see layout).

Rest Rooms

There are two rest-rooms available; however, if you expect your event to attract more than 200 people, we do recommend at least one outdoor porta-potty.

Kitchen

The caterer's room has a refrigerator, a two-compartment sink, and a countertop work space. There is no range/oven for cooking, however ample electrical outlets are provided for coffee, tea and other small appliances provided by client.

Tables and Chairs

There are twenty 30" x 80" tables and 100 folding metal chairs for use only inside the barn. Just outside the barn there are eight picnic tables and eight park benches. We do not provide linens of any kind.

Heating and Air Conditioning

The barn is heated and air conditioned.

Decorating the Interior

You may provide materials of your choice (ribbon, plants, flowers, lights, etc.); however, they must be removed after the event. All fasteners used for decorations and hanging materials, i.e., staples, tacks, eye-screws, screws, wires, nails, etc., must also be removed after event. No paint is allowed in the barn—walls, floors, and ceilings may not be painted, nor furniture that is brought in for the event. Please Note: Majors Barn does not provide tools. Please bring your own tool kit (scissors, hammers, screw drivers, etc.), and a ladder if needed.

Set up and Tear down

You are responsible for set-up arrangements for tables, chairs, music, and catering, etc. When your event is over, remove all trash, debris, and leave floors broom-clean. Put away all tables and chairs in the stored locations. Remember to remove all fasteners (see decorating).
